A Summary of the FYUGP under NEP 2020*

What is FYUGP under NEP-2020

The Four-Year Undergraduate Programme (FYUGP) of Gauhati University is as per UGC's Curricular Framework, published in November 2022. The course structure of FYUGP is built on the Choice-Based Credit System (CBCS). Though, the FYUGP is basically a CBCS, it is radically different from the courses previously running under CBCS.

Salient features of FYUGP under NEP-2020

Structure-wise, the Bachelor's Degree programme under the CBCS is a 3-year degree programme at the end of which, a student will be awarded a Bachelor's Degree in Arts, Science, or Commerce. One can also have a Bachelor's of Vocation degree, being run in some colleges, which in short form known as the BVoc degree. The two systems – Bachelor's Course under CBCS and Bachelor's Course under the FYUGP of NEP are different in the following ways.

Duration

While under CBCS, one has a 3-year degree programme, under the NEP's FYUGP, it is a 4-year degree programme.

Exits & Entries

Under CBCS, one needs to complete the full 3-year programme in order to get a degree. There is no provision for dropping out of the programme in the middle. While in the FYUGP, one has choice to exit from the programme thrice – after one year, after two years, and after three years. If one exits the programme after one year, one gets a certificate. If one exits after two years, one gets a diploma. If one exits after three years, one gets a Bachelor's Degree. And finally if a student completes the whole 4-year, one gets a Bachelor's Degree (Honours).

Key Points

If you exit in the middle, the doors are still open for you to enter into the programme again and you can start the journey from where you left. No such provisions exists in the CBCS.

Major and Minors

In case of a Bachelor's Degree in a Stream, a student either chooses a Major and Minors or just Minors from among the subjects. In any case, a student needs to complete minimum of 21 courses or 84 credits by the third year. Please see the examples that we have given in this booklet. A Major course must carry a minimum credit of 60 and one Minor course should carry a minimum credit of 12. Usually, for majority of the students, the Core Course will consist of one Major and two Minors. But if a student desires, using the optional core paper credits (as described earlier), s/he can easily complete a third Minor as well.

Credit System

The minimum credit allocation for a 3-year programme is 84 credits in Core Courses and 36 credits in Common Courses, which comes to a total of minimum 120 credits for a 3-year programme. With the fourth year, the minimum credit requirement becomes 160.

Common courses

The common courses are to be studied by all students alike and all-together they carry total credits of 36 over a 3-year period. These courses are further divided into eight (8) sub-categories, as described below.

- (i) Multi-disciplinary Courses (MDC)
- (ii) Ability Enhancement Courses (AEC)
- (iii) Skill Enhancement Courses (SEC)
- (iv) Value Added Courses (VAC)

Internship

All students are to carry out an Internship with a credit allocation of 4. The internship is expected to be carried out in Semester-III. However, students will have the opportunity of clearing it by the end of the 6th Semester. As internships are meant to be done during semester breaks, they will not interfere with other classes.
